OFFERED BY

Hogewoning & Sons Inc.

BULBGROWERS

NEW-YORK (CITY)

NURSERIES AT: NOORDWIJK - HOLLAND.

VALLEYSTREAM L. I. N. Y.

Gentlemen:-

We have pleasure in handing you herewith our new Catalogue, at the same time wishing to take this opportunity to express our thanks for past favors and hope of being favored with your future esteemed orders.

Our long experience in the business of growing bulbs, the enormous quantity we grow, and our excellent connections in other bulb growing countries, such as France and China, enable us to offer goods of the highest quality at very reasonable prices.

In turning over the pages of this Catalogue, you will no doubt find something you need, and, possibly, in large quantities **i. e.,** at least 5000 of any one variety). In that event, write us immediately, stating the quantity you want and we will always be willing to make concessions to prospective large buyers.

If, on the other hand, you do not find what you want, it being impossible to name, in this little book, all the existing varieties of bulbs and plants we handle, write us just the same, as we are sure we can fill your wants to your satisfaction.

We are always at your service for any information you may desire regarding bulbs.

Yours very truly,

HOGEWONING & SONS Inc.

TERMS

Prices quoted are F. o. b. warehouses Holland (unless otherwise stated) and travel at purchaser's risk and expense.

Unless contrary orders are given, insurance will be provided for at purchaser's costs.

To customers of approved credit 60 days, or 3 per cent, discount for cash within ten days from date of invoice.

Firms with whom we have done no business before are kindly requested to send satisfactory references or cash with first order, from which deduct 3 per cent.

Orders for bulbs which we book in advance of shipping date are accepted by us only subject to loss by fire, rot, crop failure or other accident beyond our control.

We do not guarantee to supply same if so lost.

We give no warranty, express or implied, and will not be in any way responsible for the results of planting or forcing of any bulbs and roots we send out; we guarantee all varieties to be true to name and description.
